Objective

Creative web developer dedicated to building, designing and optimizing the performance of user-oriented, far-reaching websites and web applications. Leverage technical and artistic skills to create dynamic, high-performance web applications, and platforms enabling competitive advantage growth.

Skills

- HTML5, CSS ,JavaScript, REACT, VueJS, Bootstrap
- Git & GitHub, Docker, Bash/Shell, AWS, EC2, Apache
- Adobe Photoshop, Illustrator, Affinity Designer / Sketch
- Clear Communication, Detail Oriented, Innovative Problem-solving

Work Experience

REACT | Frontend Developer
Freelance - Conroe, TX - May 2022 to August 2022

- Designed, developed, and deployed full stack web application (net-tools.io) using HTML/CSS, Javascript, and PHP.
- Proficient in React fundamentals (JSX, Virtual DOM, Native, Node.js)
- Designed and developed REACT app (yummy recipe)
- Collaborated with backend developers using Git/Github for the release process.
- Containerized application using docker and deployed images into GCP using CloudRun for continuous integration.
- Stylized the site with the latest practices including creating multiple color gradient logos and ensuring responsive design for all platforms and screen sizes.

Front End Developer

Freelance - Seattle, WA - April 2014 to August 2019

Designed, developed and deployed front end web application using HTML/CSS/React.

- Collaborated with back-end developer using Git/GitHub.
- Used frameworks for front-end development such as React and VueJs, and designed software such as Affinity, Gimp, and Sketch.
- Created AWS EC2 instance with elastic IP for web hosting using Apache.
- Setup DNS on AWS EC2 instance using Route53.
- Installed LAMP on EC2 Ubuntu Server Instance
- Performed continued maintenance and updates on site.
